
IGB Corporation Berhad

IGB Corporation Berhad ("IGB"), a subsidiary of Goldis Berhad, was incorporated in Malaysia as a limited company on 12 November 1964 as Ipoh Garden Limited, listed on the Main Board of Bursa Malaysia Securities Berhad on 10 September 1981 and assumed its present name in February 1984. IGB is principally an investment holding and property investment company and is also engaged in retail, hotel operations, property development, property management, construction and education.

IGB is famed for its development of the iconic Mid Valley, a 50 acre mixed-use urban development project which comprises two retail malls, three hotels with over 1,600 rooms, seven office towers with over 2.67 million square metres of net lettable area and 228 service apartments. Mid Valley is perhaps most well-known for its retail malls, both of which have evolved into household names. Mid Valley Megamall and The Gardens Mall have a combined net lettable area (NLA) of approximately 2.6 million square feet and home to over 650 tenants.

Its commercial property investment business remains a bedrock of its core business, with office space of currently 2.2 million square feet of NLA, with another 800,000 square feet under construction.

IGB's hotel operations spans 16 local and foreign hotels with over 6,500 rooms.

IGB recently ventured into education and is the owner of the IGB International School at Sierramas, with a total capacity of 1,400 students.

Its residential property business is led by the renowned Tan & Tan Development Bhd, which is responsible for many landmark projects in the country. Its current projects are focused mainly on niche medium-to-high-end residential markets.

Future projects include the Southkey and 18@Medini mixed-use projects in Johor as well as mixed-use projects in London, United Kingdom and Bangkok, Thailand.
