

AFMS Solutions Sdn Bhd

AFMS kicked off its operations following its establishment in 2015. AFMS is in the business of providing consultancy services, focusing on areas of building and mall management. Specifically, AFMS aim to provide clients with innovative business solutions using big data analytics to improve people, processes and systems. As a new business, AFMS worked to raise awareness around who AFMS is and what AFMS can offer, seeking to educate potential clients about the benefit of AFMS services.
