

### **G Fish (Asia) Sdn Bhd (formerly known as Protech Yu (Asia) Sdn Bhd)**

G Fish (Asia) Sdn Bhd (“G Fish”) is a subsidiary of Goldis Berhad. It is the Asia Master Licensee for Fish Protech Controlled Aquaculture System (‘Fish Protech CAS’). Fish Protech CAS system ensures sustainable aquaculture which guarantees healthy, quality and environmentally friendly products that are free from pollution and contamination of other health hazards such as mercury.

G Fish is involved in providing a full range of integrated services for the development of high technology, viable and sustainable land based aquaculture business which include the following:-

- Marketing of OM3 Fish brand Products.
- Provision of project and construction management services, equipment supply, construction services & start up and testing services for Fish Protech Farms.
- Provision of management, technical and training services to Fish Protech Farms being developed in Asia.
- Development of Hatcheries and Nurseries for various species of fish and sale of specific pathogen free (SPF) fish fingerlings.
- Fish Feed business.
- Development of Aquaculture Parks.

Due to the decreasing wild catches of fish as a result of pollution and over fishing as well as the ever increasing global demand, the aquaculture industry will be a fast growing industry. The global demand for fish by 2011 is estimated to reach 165 million tonnes.

G Fish is gearing towards developing an integrated service to develop the aquaculture industry to meet the ever increasing demand for fish.
